Making a statement in the Assembly, he said the people would bring back the president. The veteran leader said the elections in Kerala will happen in November. "I, and the party president, will contest the election in November. There is no question of joining any party. I want to be the Chief Minister and the Congress chief minister", he said. Ramachandran said that the Congress is the last one to leave an alliance and it will maintain the alliance with the Left. "With their support the government can be maintained. The alliance with the Left, the VP rule and the 21 seats in the Assembly are all of the Congress. The support from the Communists' is only in two places. Unless we get the support of the Left, the government can be maintained. The government can be maintained with the support of all the parties except the Congress," he said. He said that the CPI-M-led LDF government has not performed very well and it is the biggest reason for the Congress' current popularity. He said that the people have seen the misery created by the LDF government in Kerala. The youth of the state feel that it is their turn to rule. The people of the state want to bring back the Congress. And the Congress is the last one to leave an alliance, he added.Q: How do I make an undulating face? I want to make this undulating face in f678ea9f9e
