About This Game

Kingdoms Rise is about palpable multiplayer fantasy battle. Select your choice of weapons and abilities and step onto a battlefield where skill alone will decide your fate.

With a multitude of armors, swords, spells, ranged weapons and more you can customize a warrior and a fighting style unique to you.

Kingdoms Rise makes fantasy combat something more than grind a earn level-ups. It's not a means to an end but an end in itself.

The feeling of steel against steel is made solid. Bringing all tension and thrill as knights wield sword and fire against each other.

Read your opponent and try to psych them out in tactical blade dueling.

Wield spells such as fireballs, lightning, hook-shots, invisibility and blinks that will work tightly in tandem with your strengths in swordsmanship.

This game has been built from the beginning to feel palpable, as though you control every muscle and plant every step. You won't watch a knight perform fancy pants maneuvers from simple button presses, instead you step into the very boots of your character and fight with your own finesse.

With deep character customization every fight is unique and every opponent will have a new trick up their sleeve. Experiment with different combinations and strategies to create a knight with a fighting style unique to you alone.

Players can form parties with friends and fight in competitive modes.

In team games the only limit is your imagination. Your teammates can build themselves into roles such as tanks, damage dealers, supports or any new role you see fit. Think up new strategies, combine spells in interesting ways and achieve victory!

Bought the game back in '14 , looked fun at the time (in a 2 a.m. and bored sort of way) but never went anywhere , dev's website is actually for sale by now. They took that sweet sweet cash and ran for it.. It was great, then they changed the way you actually play the game and apparently the devs abandoned it.

Just buy Mordhau
